early formative years a crucial but largely overlooked period in his life the first half of the book considers laing s intellectual journey through the world of ideas and his development as a psychiatric theorist an analysis of his notebooks and personal library reveals laing s engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion this part of the book considers how this shaped laing s writing about madness and his evolution as a clinician the second half draws on a rich and completely unexplored collection of laing s clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the british army subsequently in the psychiatric hospitals of glasgow and finally in the tavistock clinic in london these notes reveal what laing was actually doing in clinical practice and how theory interacted with therapy the majority of patients who were to appear in laing s first two books the divided self and the self and others have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes there is a considerable mythology surrounding laing partly created by himself and partly by subsequent commentators by a careful examination of primary sources allan beveridge both a psychiatrist and an historian examines the many mythological narratives about laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today this book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry lined notebook for psychiatrist funny and cute design beautiful cover color nice design saying i had a life but my psychiatrist job ate it and simple lined interior that s what your perfect lined notebook for psychiatrist looks like 100 white pages in very compact size of 6x9 inches with space for all crucial notes every psychiatrist need to write down in their journal at work and not only hilarious sign saying i had a life but my psychiatrist job ate it will make sure they will smile everytime reading it and thinking about their job this notebook from our funny job series is perfect for writing down ideas and thoughts at work at home you may use it as your beautiful diary journal to doodle to plan things and projects planning some of your big life and job projects using it as daily journal it has special space for date so you may be sure your notes are well organized this i had a life but my psychiatrist job ate it funny notebook is a good present idea give it to your daughter or son mom dad girlfriend or boyfriend who starts their job as psychiatrist soon it will make them proud and happy give it to your friend if you know how much they love their job and you want to appreciate it it s perfect for every co worker s birthday at your psychiatrist job if you re a boss give it to your employees as group gift so they feel appreciated and work being even happier notebook specification cute design saying i had a life but my psychiatrist job ate it 100 pages soft cover black and white interior lined and special space for date 6x9 inches
